TELEGRAMS.

ST. CROIX STATION.

Panama, Feb 25th.—An angry crowd of Panamanians tore the Costa Rican "Coat of Arms" from that nation's consulate here last night and trampled it under foot. This incident followed a demonstration against Costa Rica which came as a sequel to the invasion of Panamanian territory by Costa Rican forces, reports of which were confirmed at the Presidential offices, which gave out telegrams stating that Costa, in the Province of Chiriqui had been occupied by Costa Rican forces. The demonstrations began early in the evening and a short time later a cheering crowd appeared before the National Palace and called upon President Porras for a speech. The President made a patriotic address calling upon "Loyal Panamanians" to present themselves today for the formation of military forces in case such a step should be necessary. Senor Jecome, Costa Rican Consul who is a native Panamanian, has resigned his post, while two brothers-in-law of President Porras who have been holding offices in the Panama Administration, have resigned, being Costa Ricans by birth. Costa has occupied by force the district of Coto on the Pacific boundary, which we have possessed under the status Quo", said an official statement issued last night. She claims this territory in accordance with the award handed down in 1914 by Chief Justice White of the United States Supreme Court, who was named arbitrator and Panama had declined to accept his decision.

Postdam, Germany, February 25th.—Former Empress Augusta Victoria of Germany is reported to be unconscious, at Doorn, Holland, in private telegrams received here last night. It is said there is no hope of her recovery and her early demise is indicated. Visitors at the new palace here report that preparations for the internment of the former empress are going on and that a burial plot for her and the former emperor is being made ready. It is in close proximity to the palace, which was the former monarch's Domicile in this city.

A Gift

A 10-Day Tube of Pepsodent is sent to all who ask. See coupon.

Tobacco Teeth

See the change in ten days

Smokers' teeth discolor more than others, usually. But the stains lie in a film, and removing that film removes them.

There is now a way to combat this film. Millions of people employ it. Leading dentists everywhere advise it. See how teeth whiten when you use it a few days.

Film ruins teeth

That film on teeth which makes them dingy causes most tooth troubles. It is viscous—you can feel it. It clings to teeth, enters crevices and stays.

The old ways of brushing did not end it, so millions found that well-brushed teeth discolored and decayed.

It is the film-coat that discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Very few people have escaped these troubles caused by film.

The New-Day Dentifrice

A scientific film combatant, combined with two other modern requisites. Now advised for daily use by leading dentists everywhere. Supplied by druggists in large tubes.

Now we combat it

Now dental science has evolved ways to combat film day by day. Able authorities have amply proved their efficiency.

These methods are combined in a dentifrice called Pepsodent. Millions have adopted it, largely through dental advice. It opens, we believe, a new dental era. And, to let all know it, a 10-Day Tube is being sent to everyone who asks.

See and feel it act

Pepsodent brings five desired effects. Some are instant, all are quick. A very short test will prove a revelation.

One ingredient is pepsin. Another multiplies the starch digestant in the saliva, to digest starch deposits that cling. It also multiplies the alkalinity of the saliva, to neutralize the acids which cause tooth decay.

Two factors directly attack the film. One of them keeps the teeth so highly polished that film cannot easily adhere. With every application it combats the teeth's great enemies as nothing else has done.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coat disappears. Let this test show you, for your own sake, what clean teeth really mean.
