

BY THE PRESIDENT OF THE
UNITED STATES.

A Proclamation.

Whereas the Congress of the United States, by a concurrent resolution adopted on the fourth day of March last, authorized the Secretary of War to cause to be brought to the United States the body of an American, who was a member of the American expeditionary forces in Europe, who lost his life during the world war and whose identity has not been established, for burial in the memorial amphitheater of the national cemetery at Arlington, Va.

And, whereas, the remains of this unknown American to be brought to the United States in pursuance of the said concurrent resolution, will be buried in the said memorial amphitheater at Arlington on the 11th day of November next.

And, whereas, these remains will be representative of all unidentified American dead who in the world war gave their lives in their country's cause;

And, whereas, it is desired that grateful recognition of their loyal devotion to country and of their sacrifice should be appropriately shown with due solemnity by their God-fearing and patriotic fellow countrymen;

Now, therefore, I, Warren G. Harding, President of the United States of America, do hereby call upon all devout and patriotic citizens of the United States to pause from their accustomed occupations and labors on Friday, the 11th day of November next, from 12 o'clock noon to 2 minutes past that hour for a period of silent prayer of thanks to the Giver of all good for these valuable and valorous lives and of supplication for His divine mercy and for His blessing upon our beloved country.

Furthermore, I hereby direct that the national flag be displayed at half staff upon all the public buildings of the United States and all stations of the army, navy and marine corps throughout the world, as well as upon all American embassies, legations and consulates, from sunrise until sunset, on November 11, 1921.

In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed. Done in the District of Columbia this 30th day of September in the year of Our Lord, one thousand nine hundred and twenty-one and of the Independence of the United States of America, the one hundred and thirty-sixth.

WARREN G. HARDING.

By the President.

CHARLES E. HUGHES.

Secretary of State.

Active Middle Age May Beat Youth

Medical Science proves blood rich in iron to be a secret
of great strength, energy and endurance

You may be a better man at 50 than the husky stripling of 25 if you take care of yourself and **KEEP YOUR BLOOD FILLED WITH IRON.**

In an account of a severe mountain climbing test, a New York newspaper states that 20 per cent of those who accomplished the feat were 44 years and over.

Prize-fighters, wrestlers and athletes have learned the value of plenty of plain coarse foods in their training as such a diet helps supply their blood with iron.

THERE ARE 30,000,000,000,000 RED BLOOD CORPUSCLES IN YOUR BLOOD AND EACH ONE MUST HAVE IRON.

Nature put plenty of iron in the husks of grains and the skin and peels of vegetables and fruits to enrich your blood, but modern methods of cookery throw all these things away—hence the alarming increase in recent years in Anaemia—iron starvation of the blood, with all its attendant ills. When you get up feeling tired in the morning; when you find yourself nervous, irritable and easily upset; when you can no longer do your day's work without being all fagged out at night; when your digestion all goes wrong, or you have pains across the back and your face looks pale and drawn, do not wait until you go all to pieces and collapse in a state of nervous prostration, or until in your weakened condition you contract some serious disease, but consult your family physician and have him take a specimen of your blood and make a "blood count" of your red blood corpuscles, or test the iron-power of your blood yourself by adding plenty

of spinach, carrots, beet roots or other iron-containing fruits and vegetables to your daily food and take Nuxated Iron with them for a while and see how much your condition improves.

Thousands of people have surprisingly increased their strength, energy and endurance in two week's time by this simple experiment. But in making this test be sure that the iron you take is organic iron and not metallic iron or mineral iron which people usually take. Organic iron is like the iron in your blood and like the iron in spinach, lentils and apples, while metallic iron is iron just as it comes from the action of strong acids on small pieces of iron. Organic iron may be had from your druggist under the name of NUXATED IRON.

Your money will be refunded by the manufacturer if you do not obtain perfectly satisfactory results. At all druggists in tablet form only.

**NUXATED IRON ENRICHES THE BLOOD GIVES
YOU NEW STRENGTH AND ENERGY**
