GERs Retirement System (Board of Trustees)

Source recording	https://youtu.be/XB27WTppTcM
Status	This is NOT the official transcript. 3 V.I.C. § 884 requires the agency itself to make a verbatim record of its proceedings and reduce it to a transcript within sixty days. This is a working transcript produced by machine from a recording of the proceeding, offered as a finding aid.
Transcribed by	VI Update, using OpenAI Whisper large-v3-turbo, run locally. Not reviewed by a person.
Reliability	Automatic transcription, UNVERIFIED. Verify every quotation against the recording before relying on it. Speech recognition splits spoken digits and wraps figures mid-number, so a dollar amount, a vote count or a bill number can be wrong in a way that reads as correct. Speakers are not identified: automatic speaker labelling was measured unusable and removed.
Public record	The underlying proceeding is a public record, and this body is NAMED as a governmental agency in 1 V.I.C. § 253(b), so its meetings are open to the public under § 254. 3 V.I.C. § 884 requires it to make a verbatim record of each proceeding and reduce it to a transcript within sixty days, and § 884(b) makes that transcript open to examination under § 881, which also gives every citizen the right to copy it and the news media the right to publish it. The source recording is not ours, is not hosted here, and remains with its publisher at the link above.
Rights	To what we added · the transcription, its arrangement and its description · we assert nothing. A verbatim transcript is mechanical rather than authored, so there is likely nothing in it to own; to the extent any copyright is nonetheless found to subsist, it is dedicated to the public domain under CC0 1.0. Please copy it, quote it, index it, train on it, republish it, mirror it, sell it. Redistribution is the point: a public record with one copy is one fire from gone. No permission is needed, and none is ours to grant or withhold.

People named in this transcript

SUSPECTED, and a finding aid only. Names were matched by machine against the spellings used across all 426 of our transcripts, and the title is the one used in the room. Being named here is NOT evidence that a person attended or spoke · only that the name was said. Speech recognition mishears names, so a spelling may be wrong even where no alternative is offered.
