

Sheriff's Sale Of Valuable Real Estate.

By virtue of an execution to me directed, issued out of the Clerk's office of the District Court of the Virgin Islands of the United States, Christiansted Sub-Judicial District, in the case of

LIQUIDATORS OF THE LABOR
UNION SAVINGS BANK

Vs.

GUSTAVE LANGE

and levy made thereunder, I will offer for sale to the highest bidder on

Friday June 27th 1924

at the hour of 2 o'clock P. M. in the Court room in the Fort, in the town of Christiansted, Municipality of St. Croix. All that piece or parcel of land together with the buildings and improvements thereon, known as

No. 14 KING STREET

located at the southeast intersection of King and Princes Streets, in the town of Christiansted, title to which is in the name of the said Gustave Lange, upon terms as follows:

One Hundred Dollars to be paid on the day of sale, remainder to be paid in thirty days.

Dated the 28th day of May, 1924.

F. COULTER,
Sheriff

NOTICE.

FROM THURSDAY 12TH INST., a portion of the Center Line,—The "bend" around La Reine—will be temporarily closed to Public-traffic, during the construction of a culvert across the roadway. The traffic will, in the meantime, make a slight detour through a "range" in the adjoining canefield—near the two White Pillars—coming out on the line between Barren Spot and Clifton Hill, near road leading north, between Slob and La Reine. Fences will be placed at both ends, with notices painted on them; red lights being hung at nights.

EDGAR W. MEYER,
Chairman Road Commission.

St. Croix, V. I.,
June 9th, 1924.

No Dingy Film

On the prettier teeth you see everywhere today

Do you realize how many prettier teeth you see in every circle now? And how many smile to show them?

It is so the world over. There has come a new era in teeth cleaning. You and everyone should learn how much it means.

Why teeth discolor

Film is what clouds teeth—that viscous film you feel. It clings to teeth, enters crevices and stays. Food stains, etc., discolor it. Then it forms cloudy coats. Tartar is based on film.

Old methods did not effectively combat it. So most teeth were coated more or less. And few escaped the troubles caused by film.

Film holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea.

Now ways to fight it

Dental science has now found two ways to fight that film. One acts to curdle film, one to remove it, and without any harmful scouring.

Able authorities proved those ways effective. Then a new-type tooth paste was created, based on modern re-

search. Those two film combatants were embodied in it for daily application.

The name of that tooth paste is Pepsodent. Now dentists the world over are urging its adoption. To careful people of some 50 nations it has brought safer, whiter teeth.

Mistakes corrected

Research also proved that former methods reduced Nature's tooth-protecting forces in the mouth.

Pepsodent corrects that mistake. It multiplies the alkalinity of the saliva. That is there to neutralize mouth acids, the cause of tooth decay. It multiplies the starch digestant in the saliva. That is there to digest starch deposits which may otherwise ferment and form acids.

Watch it for a week

A test of Pepsodent will prove a revelation. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

You will quickly realize what this method means to the people in your home. Send the coupon for a 10-Day Tube. Compare it with the old-time methods. Cut out coupon now.

Protect the Enamel

Pepsodent disintegrates the film, then removes it with an agent far softer than enamel. Never use a film combatant which contains harsh grit.

Pepsodent MARK
TRADE

The New-Day Dentifrice

A scientific tooth paste based on modern research, free from harmful grit. Now advised by leading dentists the world over. On sale everywhere in two sizes.
