Nice Teeth

Combat that film if you seek that supreme charm

A few years ago, beautiful teeth were seen less often than now. Now millions show them. You see them everywhere. People are combating film.

Tooth troubles were almost universal. Now people combat the cause in a scientific way.

Won't you now learn what brought that change about?

Film—the enemy

Film is the great tooth enemy—that viscous film you feel. It clings to teeth, gets between the teeth and stays.

It absorbs stains, then forms dingy coats. Tartar is based on film. That's why teeth lose their luster.

Film holds food substance which ferments and forms acids. It holds the acids in contact with the teeth to cause decay. Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea.

That's how tooth troubles come.

The new methods

Now we daily fight that film. Dental science, after long research, found two effective ways. One acts to curdle film, one to remove it, without any harmful scouring.

Able authorities proved those methods. Then a new-type tooth paste was created, based on modern research. Those two great film combatants were embodied in it.

Protect the Enamel

Pepsodent disintegrates the film, then removes it with an agent far softer than enamel. Never use a film combatant which contains harsh grit.

That tooth paste is called Pepsodent. Careful people of some 50 nations now employ it, largely by dental advice.

Night and day

Pepsodent also multiplies the alkalinity of the saliva, to neutralize mouth acids as they form. It multiplies the starch digestant in the saliva, to digest starch deposits which may otherwise ferment and form acids.

Thus it gives manifold power to these natural agents which night and day fight acids—the cause of tooth decay.

You'll welcome it

Pepsodent will delight you. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

Watch these effects. Cut out this coupon and send it for a test. It will be a revelation.

10-Day Tube Free ¹¹⁰⁶ _{Ex}

THE PEPSODENT COMPANY,
Dept. W-6, 1104 South Wabash Ave.,
