CHRISTIANSTED, V. I. U. S. A. SATURDAY 28TH MAY 1921.

No 125.

Your Business Needs A

Dalton

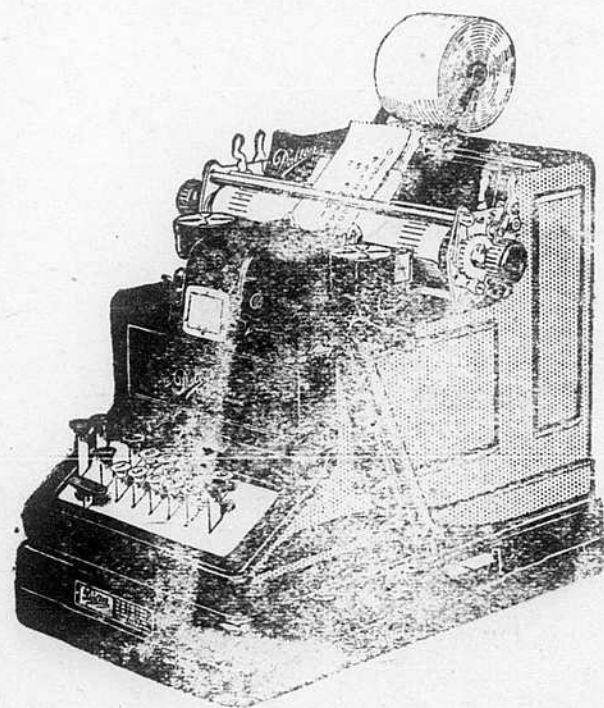

**ADDING AND
CALCULATING MACHINE**

You may not think so now, but a very short time after you have installed a Dalton you will commence to wonder why you did not have one before. You will soon come to consider it quite as necessary as your typewriter or telephone. **WOULD YOU THINK OF BEING WITHOUT EITHER OF THESE NOW?**

Every office, no matter how peculiar its needs are, has plenty use for a Dalton. The improvement you will effect by the installation of one in YOUR office will be equal to the one you made when you put in your typewriter. It is much easier to learn to use a Dalton than it is to learn to use a typewriter. In fact, there is nothing to learn in the Dalton, you add with it as easily as with a pencil, only quicker and without the mental strain.

Why D. Work with Your Brain

That A machine can do quicker & better?

Let us tell you about the Dalton. Write us a card today. Our salesman will be in St. Croix soon and will be glad to bring a machine to your office and show it to you, let you try it yourself. You will be under no obligation. Please give us a chance to put you on to something good.
