New Features That Mean Economy

All of the several improvements embodied in the new Goodyear Cord Tyre are calcu-
lated to a single result.

That result is increased economy for the Goodyear user—greater mileage at lower cost.

The new beveled All-Weather Tread, for example, is made of an improved rubber
compound that offers extreme resistance to wear.

The beveled feature assures a more uniform distribution of the load over the tyre
body, enables the tyre to seat itself better in ruts, and relieves the carcass from
vibration as wear proceeds.

Contributing to increased economy also, are better unions between the plies of the
carcass and between the carcass and the tread.

Contributing again are heavier sidewalls to resist kerb and rut wear. These and
other features in the new Goodyear Cord with the beveled All Weather Tread combine
to make the finest and most serviceable tyre Goodyear has ever produced.

Quieter, smoother-running, longer lived and more economical, it is called by users
the greatest tyre achievement in years.

You can get this improved Goodyear Cord at no extra price from the Goodyear
Dealer.

Goodyear Means Good Wear.
