Very respectfully,
W. F. BRUNNER,
Sanitary Inspector, U. S. M. H. S.
The SUPERVISING SURGEON-GENERAL,
U. S. Marine-Hospital Service.

DANISH WEST INDIES.

Quarantine against Santos, Tampico, and Vera Cruz.

COPENHAGEN, October 20, 1898.

SIR: I have to inform you that on the 27th ultimo the Government of the Danish West Indies replaced the quarantine declared against ships arriving from Santos, Brazil, June 9 last by sanitary inspection; also that on the 24th ultimo the same government ordered a quarantine of five days against ships arriving from Vera Cruz and Tampico, Mexico, on account of an epidemic of yellow fever at these ports.

I have the honor to be, sir, your obedient servant,

LAURITS S. SWENSON.

HON. SECRETARY OF STATE.

MEXICO.

Yellow fever at Monterey.

MONTEREY, October 25, 1898.

SIR: I have the honor to acquaint the Department that I have just sent the following telegram touching yellow fever: "Assistant Secretary of State, Washington, D. C. Yellow. Pollard."

In this connection I beg to say that all doubt of the presence of yellow fever has disappeared, physicians and the community generally concurring in this. It is not thought there will be an epidemic, although the cases thus far, it is understood, number from 40 to 50. The daily death rate from all diseases is very heavy. The authorities have done their best to keep this a secret, and if it had not been for the courage and independence of one physician the people would have been kept in the dark as to the disease. Monterey has been quarantined for some days by the Texan authorities.

I have the honor to be, sir, your obedient servant,

JOHN K. POLLARD,
Consul-General.

HON. ASSISTANT SECRETARY OF STATE.
