Late Arrivals

By the S. S's. "Bridelown" &
"Bolivar"I HAVE received a full assort-
ment of

AUTOMOBILE PARTS

too numerous to detail.

Look in at the old Stand, Corner
of No. 6 King's Street where your
supplies can be procured at moder-
ate prices.

Robert Armstrong,

Authorized Ford Dealers.

Christiansted, St. Croix, 15th May 1923.

Send your order, broken lens or
prescription through the mail.

F. M. CORNEIRO,
St. Thomas, V. I.

A New Charm

Came to millions in this way

Millions of people have gained
new charm through whiter, pret-
tier teeth. You see them every-
where. The reason lies in a new
cleaning method. Careful people
of some fifty nations are using it
today.

Test this method if you do not
know it. People all about you
have proved its importance. See
what it means to you.

Combats the film

One purpose is to combat film
on teeth—that viscous film you
feel. It clings to teeth, enters
crevices and stays. It absorbs
stains, making the teeth look
dingy. Then it forms cloudy
coats. Tartar is based on film.

Film also holds food substance
which ferments and forms acids.
It holds the acids in contact with
the teeth to cause decay. Germs
breed by millions in it. They,
with tartar, are the chief cause
of pyorrhea.

No ordinary tooth paste effec-
tively combats film. So, under

old methods, these troubles con-
stantly increased, and beautiful
teeth were seen less often than
today.

Two ways found

To meet this situation, dental
science searched for ways to
fight film, and two ways were
found. One acts to curdle film,
one to remove it, and without any
harmful scouring.

Able authorities proved these
methods effective. Then a new-
type tooth paste was created,
based on modern research. The
name is Pepsodent. These two
great film combatants are em-
bodied in it. Then dentists the
world over began to advise its
use.

Other factors

But Pepsodent brings other
effects which old ways did not
bring. It multiplies the alkalinity
of the saliva. That is there to
neutralize mouth acids, the cause
of tooth decay.

TRADE

The New-Day Dentifrice

A scientific film combatant, which whitens, cleans and
protects the teeth without the use of harmful grit. Now
advised by leading dentists the world over. For sale in
two sizes by all druggists.

Free

One 10-Day Tube
Send the Coupon

It multiplies the starch diges-
tant in the saliva. That is there
to digest starch deposits on teeth
which may otherwise ferment and
form acids.

Thus it gives manifold power
to Nature's great tooth-protect-
ing agents. And everywhere this
means to people a new dental
era.

Watch the man

Men who smoke find that
tobacco particularly stains that
film. Such men see conspicuous
results. But most people's teeth,
of every age, are clouded more or
less.

Send the coupon for a 10-Day
Tube. Note how clean the teeth
feel after using. Mark the ab-
sence of the viscous film. See
how teeth whiten as the film-
coats disappear.

That test will give you new
ideas of what clean teeth mean.
You will want your family to
always have them, we believe.
Cut out the coupon now.
