ABSTRACT

Listed in the directory are over 200 educational programs and services for deaf blind children in the United States and U. S. territories. It is noted that the 10 coordinators of regional centers for services to deaf blind children have aided in compilation of the directory. Listings are arranged by state within the New England, Mid-Atlantic (North and Caribbean), Mid-Atlantic, South-East, Mid-West, Central, South-Central, Mountains Plains, South-Western, and North-West Regions,. Given for each region are the name, address, and telephone number of the regional coordinator. Usually given for each listing is the director's name of school or service, address, and telephone number. In some cases listings include number of classes offered and the type of service such as residential or day school, and kind of educational program. (MC)

INTRODUCTION

A need has existed for some time for compilation of a directory of current programs and services for deaf-blind children of the United States to provide parents, professionals, teacher candidates and others with current information regarding program locations.

This directory is compiled to meet such a need. It is possible because of the cooperation of each of the ten coordinators of the regional centers for services to deaf-blind children and their National Coordinator, Robert Dantona, Bureau of Education for the Handicapped, United States Office of Education. Special appreciation is extended to Ms. Shelley Cunningham, Graduate Assistant at Michigan State University during 1973-74, for her particular help and assistance in this task.

It is hoped that from this modest beginning will develop a more sophisticated and complete directory in the years to come.

User and reader suggestions for improvements and greater usefulness will be appropriate--and welcome.
