D. 1924 at 10 o'clock in the forenoon of that day, at the Office of the Judge of said Court in the Town of Christiansted, Island of St. Croix, and all persons interested in the said estate are hereby notified then and there to appear and show cause, if any they have, why the said account should not be settled and allowed.

Christiansted, St. Croix, February 23rd 1924.

A. E. STAKEMANN,
Executor.

New Features That Mean Economy

All of the several improvements embodied in the new Goodyear Cord Tyre are calculated to a single result.

That result is increased economy for the Goodyear user—greater mileage at lower cost.

The new beveled All-Weather Tread, for example, is made of an improved rubber compound that offers extreme resistance to wear.

The beveled feature assures a more uniform distribution of the load over the tyre body, enables the tyre to seat itself better in ruts, and relieves the carcass from vibration as wear proceeds.

Contributing to increased economy also, are better unions between the plies of the carcass and between the carcass and the tread.

Contributing again are heavier sidewalls to resist kerb and rut wear. These and other features in the new Goodyear Cord with the beveled All Weather Tread combine to make the finest and most serviceable tyre Goodyear has ever produced.

Quieter, smoother-running, longer lived and more economical, it is called by users, the greatest tyre achievement in years.

You can get this improved Goodyear Cord at no extra price from the Goodyear Dealer.

Goodyear Means Good Wear.
