WHY YOU NEED IRON—

To make you strong and "brainy"
and put the power into your
blood to overcome dis-
ease germs

The food you eat contains carbon. When your food is digested it is absorbed from the intestines into the blood. When the carbon in your food comes in contact with the oxygen carried by the iron in your blood, the carbon and oxygen unite and by so doing they give off tremendous energy, thereby giving you great force, strength and endurance. Without iron your blood carries no oxygen and without oxygen there is nothing to unite with the carbon in your food, so that what you eat does you no good—you do not get any strength from it—it is like putting coal into a stove without a fire. You cannot get any heat unless the coal unites with the fire.

The strongest weapon with which to prevent and overcome such pneumonia, kidney trouble, rheumatism, nervous prostration, in fact almost any disease or disease germs is plenty of good rich, pure blood, strength, energy and endurance and the greater energy carried in the body is organic iron, not metallic iron which people usually take, but organic iron like the iron in spinach, lentils and peas, and like the iron contained in what is known as organic Nuxated Iron, which may be had from almost any druggist. Nuxated Iron often increases the strength, energy and endurance of weak, nervous, run-down folks in two weeks' time.

It has been used and highly recommended by former United States Senators, Members of Congress, Judges of U. S. Courts, many physicians and prominent men.

Over 4,000,000 people are now using it successfully. Satisfactory results are guaranteed or the manufacturers will refund your money. Sold by all druggists in tablet form only.
