ROBT. L. MERWIN,
Chairman.

A Gift

A 10-Day Tube of Pepsodent is sent to all who ask. See coupon.

You Can't Escape

Tooth troubles if you leave a film

You should try this new method of teeth cleaning. Try it ten days without cost. It combats the film which dims the teeth and causes most tooth troubles.

See and feel the results. To millions they are bringing cleaner, safer, whiter teeth.

The tooth wrecker

Film is the great tooth wrecker. A viscous film clings to the teeth, enters crevices and stays. The ordinary tooth paste does not end it. Old ways of brushing leave much of it intact. And very few people have escaped the troubles which it causes.

It is the film-coat that discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea—a disease now alarmingly common.

A new dental era

Dental science has now found ways to combat that film. The methods have been amply

proved by years of careful tests. Now millions employ them. Leading dentists everywhere advise them.

The methods are combined in a dentifrice called Pepsodent. And, to let all know how much it means, a ten-day tube is being sent to all who ask.

Five desired effects

Pepsodent brings five desired effects. It combats the teeth's great enemies as nothing has done before.

One ingredient is pepsin. Another multiplies the starch digestant in the saliva, to digest starch deposits that cling. The saliva's alkalinity is multiplied also. That to neutralize the acids which cause tooth decay.

Two factors directly attack the film. One of them keeps teeth so highly polished that film cannot easily adhere. Every application repeats these results.

Send the coupon for the 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

What you see and feel will be a revelation and the book we send will explain how each effect is natural and necessary. It is important that you know this. Cut out the coupon now.
